Note:

- ❖ There are no written accent marks in any form!!!
- ❖ Once you memorize the "yo" form for each verb, the rest of the conjugations will follow a familiar pattern.
- ❖ The letter "i" drops out after the "j" in the third person plural (ellos) of the three verbs that end with "cir" (**conducir**, **decir**, and **producir**) and in the third person (ellos) of **"traer."**
- ❖ You will see that the conjugations of "ir" and "ser" are absolutely identical in the preterite.
