INTERPRETING LINE GRAPHS **5th Grade**

Hot Cross Buns

A bakery bakes a lot of hot cross buns. The following line graph shows the number of baked buns over several days. Answer the questions.

- 1) How many hot cross buns did the bakery bake on Saturday?
- 2) How many hot cross buns were baked from Monday to Thursday?
- 3) On which day did the bakery bake half the number than that on Friday?
- 4) How many hot cross buns were baked in all 6 days?
- 5) What is the average number of hot cross buns the bakery baked per day?
- 6) The bakery sold the buns for 2\$ per 3.
How much did the bakery earn on hot cross buns on Thursday?
