Linear Equations Slope

Find the slope from the given equation.

$7x - 9 = y$

slope = _____

$5y - 8x + 16 = 0$

slope = _____

$4y - 15 = -3x$

slope = _____

$-10 = 8x - y$

slope = _____

$6x + 2y = -1$

slope = _____

$5x + 3y + 12 = 0$

slope = _____

$x = 3 + 7y$

slope = _____

$10x + 2y = -9$

slope = _____
