

Plant Structure and Function

Name:

Date:

Below is a picture of a plant.
Label each part using the word bank and mention each part's role!

1) What is the main function of the roots in a plant?

2) What part of the plant carries water and nutrients to the rest of the plant?

3) Which part of the plant makes food using sunlight?

4) What part of the plant attracts bees and butterflies?

5) What does a fruit do for the plant?

6) What are seeds, and why are they important for a plant?

7) Why do plants need sunlight to grow?

8) What part of the plant do we often eat that stores food?

9) Name two different functions of the stem.

10) How do leaves help a plant survive?
