Directions: Read the story below then answer the true or false questions about the text!

Ella the Gentle Elephant

Ella was a big, gentle elephant who lived in the jungle.

One hot day, she noticed a group of smaller animals gathered around a dry pond. "What's wrong?" Ella asked.

The animals said they had no water to drink because the pond had dried up. Ella thought for a moment, then smiled. She walked to a nearby river, filled her trunk with water, and carried it back to the pond. One by one, the animals drank the cool water. "Thank you, Ella!" they all said. Ella felt proud to help her friends and watched happily as everyone stayed cool and hydrated.

Fill in the blanks with true/ false answer!
