Penny the Brave Penguin

Penny the penguin lived on a chilly ice floe in the South Pole. One day, while she was playing with her friends near the water, she saw a baby seal stuck on a piece of floating ice. The ice was drifting farther away from the shore, and the baby seal looked scared.

Penny knew she had to do something. Although she was small, Penny was a strong swimmer. She dove into the cold water and swam quickly toward the ice. Using her beak, she helped the baby seal climb back to safety. All of Penny's friends cheered as she returned. "You're so brave, Penny!" they said. Penny smiled, happy to have helped her friend.
