## "CRACK" WOW IT'S A DINO EGG

Sam loved exploring the hills near his house. One day, while walking, he saw something shiny sticking out of the dirt. Sam dug it up and found a big, spotted egg.

"Could this be a dinosaur egg?" he wondered. Sam brought the egg home and kept it warm in a blanket. A few days later, the egg cracked open, and a tiny baby dinosaur popped out! It was green with little orange spots. Sam named it Dino. Dino followed Sam everywhere, and they became best friends. Sam knew Dino would grow big one day, but for now, they had fun playing together.

### Question!

1. Where did Sam find the egg?

\_\_\_\_\_

2. What was inside the egg?
