THE LEPRECHAUN'S POT OF GOLD

READ THE STORY AND ANSWER THE QUESTIONS BELOW.

I saw a leprechaun run across the yard. I went outside to try to catch him.

He ran down the street, so I ran after him. He turned a corner, and I followed him through a garden filled with blooming flowers. The leprechaun darted into a playground, weaving between swings and slides. I was getting tired, but I didn't give up!

He then ran to the park. I ran through the tall grass, past the big oak trees, and around the pond. I did not find the leprechaun, but I found his pot of gold! It was shining brightly under the rainbow. I couldn't believe my luck. I carefully took the pot and brought it home, wondering what magical adventures the gold might bring.

At home, I showed the pot of gold to my family. They were as surprised as I was! We decided to use the gold to help others and share our good fortune. Every coin we spent seemed to bring joy and happiness, making me believe the gold was truly magical. I kept looking out the window, wondering if the leprechaun would ever return for his treasure.
